and while washing windows fell into an areaway.

The Globe Indemnity Company maintained that hotel porters were not included in any of the forty-two groups of the new law and quoted the following excerpt:

Employee means a person who is engaged in a hazardous employment in the service of an employer, carrying on or conducting the same upon the premises or at the plant or in the course of his employer, and shall not include farm laborers or domestic service.

The commission deferred their decision as to whether Hernon was included in the "domestic servant group" until Monday.
